

GLOBAL LAUNCH OF THE BIOMETRIC VEST WITH SPORTS MEDICINE APPLICATIONS

For the first time Cyclists & Triathletes will have the combined benefit of the Biometric Vest that accounts for their Heart Rate ECG Posture Positions as well as Exercise Stress indicators together with synchronization of major devices & platforms such as **Garmin** and **Polar** and the world renowned **Strava** application!

A joint venture project from the Sports Medicine Team at Perth Integrated Health and Oakton – a Dimension Data company. The same company that has brought you the state of the art Sports Analytics at the Tour de France and the Tour of California in 2016!

The Biometric Vest for Men and the Biometric Sports Bra for Women retail for \$380 and can be shipped anywhere in the world with our postage arrangements. Registered users will then get an email invitation to join the Sports Medicine Analytics program with the option of a 6 month or 12-month subscribed monitoring program by the Sports Medicine team from Perth Integrated Health.

Imagine having your Health and Fitness intensity monitored safe in the knowledge that we can provide the sports medicine as well as the physiological advice that would make a big difference to your training whether it is Running or on the Bike.

Users in Perth will be able to directly source Perth Integrated Health clinics to undertake the proper Heart Rate Threshold testing and Biometric data reading which will be added to your personalized Dashboard and information of your Biometrics on the Run or Ride can also be sourced through your direct Phone App.

Users outside of Perth within Australia will soon have appointed Sports Medicine clinics throughout the country and overseas users can also source Sports Medicine clinics which will be licensed by us to use the same technology.

View of the Athlete's personalised dashboard.

To know more send an Expression of Interest to the Biometrics Team @ Perth Integrated Health via:

biometrics@pihc.com.au

Sports Medicine Practitioners interested in establishing licenses for their practices interstate from Perth or Overseas please send direct enquiries to: Ian Wee, Sports Medicine Director @ Perth Integrated Health: ianwee@pihc.com.au
